Declaration of Equivalence

We ForaCare Suisse AG, are committed to continuously improve our products, and we are conducting clinical validations which are done internally and externally above and beyond the legal and CE requirements.

As part of this process, striving to provide our patients with the latest and best technologies and with the utmost care, ForaCare regularly conducts clinical validations using a blood glucose monitoring system that is identical to another system.

We hereby declare that the device validated in Malmo University (Sweden), FORA V30a, uses the same strips, formulas and the IC chip on the BGM system and is therefore identical in nature, and manufacturing to the G30a, G71a, G31a, G31b and D40a, D40b and g for the BGM capability.

We hereby also declare that the device validated in the IDT Institute (Germany), G31a, uses the same strips, formulas and the IC chip on the BGM system and is identical in nature, and manufacturing to the G30a, G31b, V30a, and G71a.

We hereby declare that the device validated in AFSSAPS (France), G31b, uses the same strips, formulas and the IC chip on the BGM system and is identical in nature, and manufacturing to the G30a, G31a, V30a and G71a.
